SR Tech Engineering Pvt. Ltd. is an **engineering** and **EPC service company** delivering reliable, safe, and efficient solutions for Boiler, Power Plant and **Balance of Plant (BOP)** projects.

Established in 2013, we have successfully executed nearly **55 projects** across different locations in India, building strong expertise in high-pressure and low-pressure boiler erection, fabrication, piping, structural works, and plant equipment installation.

Our comprehensive capabilities include **Boiler Erection, ESP Erection, Turbine Erection, MS Structure Works, IBR & Non-IBR Pipeline Erection, MS & SS Tank Fabrication, Thermic Fluid Heater Erection, Insulation Works, Chimney Fabrication, Material Handling Systems, and skilled manpower deployment.**

Backed by a team of experienced engineers, supervisors, technicians, and skilled manpower, we focus on delivering every project with precision, safety, quality, and timely execution. Our site teams work in close coordination with clients and project stakeholders to ensure seamless execution from fabrication to final erection and commissioning support.

With years of field experience and a strong understanding of industrial project requirements, SR Tech Engineering Pvt Ltd is committed to turning engineering requirements into safe, dependable, and **high-quality project execution.**

Quality

At SR Tech Engineering Pvt. Ltd., **quality** and **safety** are at the core of every project we undertake. Our experienced engineers, supervisors, technicians, and skilled workforce work in close coordination to deliver reliable services with precision, consistency, and strict adherence to safety standards.

We are committed to achieving complete customer satisfaction through quality workmanship, disciplined execution, technical expertise, and timely project delivery.

Our technical capabilities are further strengthened by a Special Class 'I' IBR License, authorizing work up to a working pressure of 125 kg/cm².

Quality in Execution. Safety in Every Step. Excellence in Every Project.

Product & Services

We provide complete engineering solutions under one roof

BOILER ERECTION WITH BALANCE OF PLANT (BOP)

We undertake complete boiler erection and maintenance services for high-pressure and low-pressure boiler systems. Our experienced site teams ensure precise installation, safe execution, and reliable performance while maintaining strict adherence to project specifications and safety practices.

AIR POLLUTION CONTROL EQUIPMENT

We provide fabrication and erection services for Air Pollution Control Equipment, including Bag Filters, Electrostatic Precipitators (ESP), and Wet Scrubbers. Our execution capabilities cover equipment installation, structural integration, duct connections, and associated site works for efficient and dependable plant operation.

INDUSTRIAL PIPING & DUCTING

Our expertise includes industrial piping and ducting fabrication and erection for process and utility applications. From fabrication to site installation, our teams focus on dimensional accuracy, proper alignment, quality workmanship, and safe execution for reliable plant connectivity and operation.

M.S. & S.S. CHIMNEY FABRICATION & ERECTION

We undertake M.S. and S.S. chimney fabrication and erection with a focus on structural integrity, accurate fabrication, proper alignment, and safe site installation. Our experienced manpower ensures efficient execution of chimney projects as per project requirements and engineering specifications.

Product & Services

We provide complete engineering solutions under one roof

REFRACTORY MATERIAL SUPPLY AND SERVICES

We provide refractory work and associated fabrication services for industrial boilers and process equipment. Our skilled teams execute refractory applications with attention to proper preparation, installation, finishing, and workmanship to support equipment durability and thermal performance.

SHUTDOWN & MAINTENANCE SERVICES

Our shutdown and maintenance services are designed to support critical plant maintenance during planned outages. With experienced engineers, supervisors, and skilled technicians, we undertake repair, replacement, inspection, and associated maintenance activities with a strong focus on safe, systematic, and timely execution.

BOILER ACCESSORIES & HEAVY STRUCTURE WORK

We undertake the fabrication and erection of boiler accessories and heavy structural components, including Superheater Coils, Economiser Coils, Boiler Bank Tubes, and Heavy Structures. Our experienced fabrication and erection teams ensure accurate assembly, proper alignment, and dependable site execution.

INSULATION WORK

We provide industrial insulation services for boilers, piping, ducting, equipment, and associated plant systems. Our workmanship focuses on proper installation and finishing to support thermal efficiency, equipment protection, and safer operating environments.

FORM XVIII
(REGULATION 392(4) OF INDIAN BOILERS REGULATIONS, 1950)

GOVERNMENT OF HARYANA

INSPECTORATE OF BOILERS, HARYANA

**CERTIFICATE FOR APPROVED REPAIRER/ERECTOR OF
BOILER/ECONOMISER/STEAMLINE/FEEDLINE ETC.**

ISSUED UNDER
THE INDIAN BOILER REGULATIONS, 1950

DB/MP/.....Dated: 08/08/2024
ENDORSED VALIDITY IN
MADHYA PRADESH

8/8/24
Director of Boilers
Madhya Pradesh, BHOPAL

Made valid for the State of Rajasthan
upto: 30-07-2026
17-11-23
Chief Inspector of Factories & Boilers
Rajasthan, JAIPUR

Certificate No. IAH/Erector/2024/00054

Dated : 30-07-2024

To
M/s [S R Tech Engineering Services]
[Opp. Industrial Area, 15, Milton Road, Double Story, Sonipat]

This is to certify that this inspectorate after having satisfied by the infrastructure installed in the aforesaid unit as per the requirement of Regulation 392 of Indian Boilers Regulation, 1950 for the repairs erection of boilers economizers steam pipe line & feed pipe line etc, and the system adopted by the unit, have been elevated and granted recognition under Regulation 392 of Indian Boiler Regulations as category class repairer erector (Class I (Boiler Pressure greater than 40 kg/cm2 and less than = 125kg.cm2)). Validity is Subject to the adherence to the quality control prescribed under the provision of the Indian Boiler Regulations.

PERIOD OF VALIDITY

From	To	SIGNATURE(Chief Inspector of Boilers)
30-07-2024	30-07-2026	

Granted this 30th day of Jul-2024 under the seal and authority of the Chief Inspector of Boilers, Haryana, Chandigarh.

Chief Inspector of Boilers

IBR APPROVED – CLASS I BOILER ERECTOR

Authorized for Boiler Erection Works in:

Haryana | Uttar Pradesh | Rajasthan | Madhya Pradesh | Chhattisgarh | Bihar | Nepal

“Strong Foundations. Precise Execution. Lasting Performance.”
